Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with Government Auditing Standards, Independent Auditor's Report on Compliance For Each Major Federal Program and Report on Internal Control over Compliance; Schedule of Findings and Questioned Costs; and our Independent Accountant's Report on an examination conducted in accordance with attestation standards established by the American Institute of Public Accountants, regarding compliance requirements in accordance with Chapter 10.800, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated November 20, 2015, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.804(1)(f)l., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report except as reported in Appendix B – Status of Prior Year's Recommendations to Improve Financial Management, Accounting Procedures and Internal Controls.

Financial Condition

Section 10.804(1)(f)2., Rules of the Auditor General, requires a statement be included as to whether or not the School Board has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the School Board did not meet any of the conditions described in Section 218.503(1), Florida Statutes.
Pursuant to Sections 10.804(1)(f)5.a. and 10.805(7), Rules of the Auditor General, we applied financial condition assessment procedures for the School Board. In connection with our audit, we did not have any such findings.

CD 2015-01 – Information Technology User Access Reviews

Criteria: General information technology (IT) controls require that an organization establish formal policies and procedures for reviewing IT access rights to relevant applications and systems.

Condition: We noted that the District does not have a formalized procedure to review IT access rights and privileges for SAP (Systems, Applications, and Products) database and operating system users.

Cause: Formal policies and procedures have not been established to require the review of SAP database and operating system users.

Effect: Risks include unauthorized use, disclosure of proprietary information, modification, damage, or loss of data.

Recommendation: We recommend that management implement internal control policies and procedures to expand the user access review process to include SAP database and operating system users. All reviews should be standardized and performed at least annually. In addition, as part of this process, management should formally document the reviews being performed and such documentation should include when the review was performed, who performed the review, and changes that were required.

Views of Responsible Officials and Planned Corrective Actions: Information Technology Services will develop and implement a process to perform an annual review of authorizations pertaining to SAP database and OS access.

**Cause:** Formal policies and procedures have not been established to standardize the review process at each District location/department and to require formal documentation of such reviews.

**Effect:** Risks include unauthorized use, disclosure of proprietary information, modification, damage, or loss of data.

**Recommendation:** We recommend that management establish formal policies and procedures to standardize the user access review process at each District location/department, and to require formal documentation of such reviews. The formal documentation should include who performed the review, date of review, any access changes that are required, and any other relevant findings.

**Prior Year’s Views of Responsible Officials and Planned Corrective Actions:**
As stated in our response in section CD 2014-01 of this document, Miami-Dade County Public Schools (M-DCPS) is in the process of creating a role assignment report that will be reviewed on a timely basis by all locations/departments within M-DCPS. ITS and other high risk departments will be required to follow the same policy that other units are obligated to follow. We believe that a consistent policy that is equally enforced throughout the District provides greatest safeguards against unauthorized use, disclosure of proprietary information, modification, damage, or loss of data. Furthermore, by following this policy, all locations/departments in M-DCPS will be in compliance with Paragraph 13 of section 5.0 (Staff Security Responsibilities) of the M-DCPS Network Security Standards. We are of the understanding that ITS and other high risk departments may be required to retain additional supporting documentation as to attest why actions were taken.

**Current Year’s Views of Responsible Officials and Planned Corrective Actions:**
In order to mitigate issues with excessive authorizations in the ERP system, Information Technology Services (ITS) has developed a report similar to the one used to review Mainframe access highlighting sensitive roles that site administrators will be required to review as policy.
