Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Educational Facilities Impact Fees Agency Funds of Miami-Dade County, Florida

Notes to Financial Statements

Note 1. General

The Educational Facilities Impact Fees Agency Funds (the Agency Funds) of Miami-Dade County, Florida (the County) were established pursuant to Section 235.19 of the *Florida Statutes* and Ordinance 95-79 of the Miami-Dade County, Florida Board of County Commissioners (the Ordinance) in May 1995 for the purpose of levying impact fees on new residential development as well as on additions to residences to provide capital for the construction of educational facilities necessitated by residential development. The educational facilities impact fee is collected and accounted for in each of the districts created by the Ordinance. The Ordinance established an East, Southwest and a Northwest District. Funds collected are required to be expended in the district in which they were collected by the School Board of Miami-Dade County, Florida.

The administration of the Agency Funds is governed by the Educational Facilities Impact Fee Administration Manual and Interlocal Agreement, both adopted in September 1995, between the School Board of Miami-Dade County, Florida (the School Board) and the Board of County Commissioners of the County. The County accounts for the Agency Funds' activities in separately identifiable funds within its agency funds.

The County is responsible for imposing and collecting the educational impact fees in accordance with the Ordinance and agreement discussed above. The County remits all fees to the School Board, less a 2% administrative fee.

These financial statements present only the Educational Facilities Impact Fee Agency Funds, and do not purport to, and do not present fairly the financial position of the County as of September 30, 2018, and the changes in its financial position and, where applicable, cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: Agency Funds are used to account for assets held in a trustee capacity or as an agent for other governmental entities and other funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations.

Basis of accounting: The County utilizes the accrual basis of accounting to account for the Agency Funds' activities.

Cash, cash equivalents and investments: The County pools substantially all cash, cash equivalents and investments, except for cash and investment accounts that are maintained separate in accordance with legal provisions or agreements with creditors, grantors or contributors. The Agency Funds' equity share of the total pooled cash and cash equivalents and investments is included on the accompanying statement of assets and liabilities under the caption "Pooled cash and cash equivalents and investments." The Agency Funds' balance in the pool is treated as a demand deposit account, as amounts can be deposited or withdrawn without notice or penalty.

The carrying amounts of the Agency Funds' cash and cash equivalents and investments with the County was approximately \$4.7 million, which represents less than 1% of the County's pooled cash and cash equivalent and investments as of September 30, 2018. (See the County's Comprehensive Annual Financial Report for disclosures relating to its interest rate risk, credit risk, custodial credit risk and concentration of credit risk and fair value measures. The Agency Funds' reported balance represents its percentage share of the pool's net asset value. Assets of the pool are reported at a combination of cost, amortized cost and fair value.)
