Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and major fund of Lincoln-Marti Charter Schools, Inc. (Little Havana Campus Charter School) (the "School"), (a Component Unit of the School Board of Miami-Dade County), as of and for the years ended June 30, 2017 and 2016, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The School's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial positions of the governmental activities and major fund of the School as of June 30, 2017 and 2016 and the respective changes in financial positions for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements of the School are intended to present the financial positions and the changes in financial positions of only that portion of the governmental activities and fund information of Lincoln-Marti Charter Schools, Inc. that is attributable to the transactions of the School. They do not purport to, and do not, present fairly the financial positions of Lincoln-Marti Charter Schools, Inc., as of June 30, 2017 and 2016, the changes in its financial positions, or, where applicable, its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 3 through 8 and budgetary comparison information on pages 24 through 26 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information as of and for the years ended June 30, 2017 and 2016 in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 30, 2017, on our consideration of the School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2017 AND 2016

As management of Lincoln-Marti Charter Schools, Inc. (Little Havana Campus Charter School) (the "School"), we offer readers of the School this narrative overview and analysis of the financial activities of the School as of and for the years ended June 30, 2017 and 2016.

Management's discussion and analysis is included at the beginning of the audited financial statements to provide, in layman's terms, the past and current position of the School's financial condition. This summary should not be taken as a replacement for the audited financial statements, which consists of the financial statements and supplementary information intended to furnish additional detail to support the financial statements themselves.

Financial Highlights

Our financial statements provide these insights into the results of current and prior years' operations.

The School's current year of operations generated a change in net position of \$708,256 compared to last year's change in net position of \$365,580. Revenues for the year ended June 30, 2017 increased over the prior year by approximately \$388,000 as a result of an increase in state FTE revenues, local grants and other, and contributions of approximately \$86,000, \$296,000, and \$6,000, respectively. State FTE revenues increased as a result of the increase in the weighted full time equivalent amount. Expenses during the year ended June 30, 2017 increased over the prior year by approximately \$46,000. In order to match the School's operational growth, certain expenses including school administration and operation of plant increased.

The net position of the School at June 30, 2017 and 2016 was \$2,742,662 and \$2,034,406, of which \$1,888,516 and \$1,117,303 was unrestricted, respectively.

Using this Annual Report

This discussion and analysis is intended to serve as an introduction to the School's financial statements. The School's financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other required supplementary information in addition to the financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the School's finances, in a manner similar to a private-sector business.

The *statements of net position* present information on all the School's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School is improving or deteriorating.

The *statements of activities* present information showing how the School's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected revenues and services rendered but unpaid).

The government-wide financial statements include all *governmental activities* that are principally supported by grants and entitlements from the state for full-time equivalent funding. The School does not have any *business-type activities*. The governmental activities of the School primarily include instructional and support services.

The government-wide financial statements can be found on pages 9 through 11 of this report.

Using this Annual Report (Continued)

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School, like state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The School's only fund is the General Fund, a governmental fund type.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near term inflow and outflow of spendable resources*, as well as on balances of *spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the School's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the School's near-term financing decisions. Both the governmental fund balance sheets and the governmental fund statements of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The School maintains only one governmental fund type, which is the General Fund. Information is presented in the governmental fund balance sheets and the governmental fund statements of revenues, expenditures, and changes in fund balance for the General Fund.

The School adopts an annual budget for its governmental fund. Budgetary comparison schedules have been provided for the general fund to demonstrate compliance with the budget and are presented as required supplementary information.

The governmental fund financial statements can be found on pages 12 through 14 of this report.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 15 through 22 of this report.

Other Information

In addition to the financial statements and accompanying notes, this report also presents certain required *supplementary information* concerning budgetary information for the School's general fund. Required supplementary information can be found on pages 24 through 26 of this report.

Our auditor has provided reasonable assurance in their independent auditor's report, located immediately preceding this Management's Discussion and Analysis, that the financial statements are fairly stated. Varying degrees of assurance are being provided by the auditor regarding the Supplementary Information identified above. A user of this report should read the independent auditor's report carefully to ascertain the level of assurance being provided for each of the other parts listed in the table of contents.

Financial Analysis of the School's Funds

As noted earlier, the School uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Financial Analysis of the School's Fund (Continued)

Governmental Fund - The focus of the School's governmental fund is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the School's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the School's fiscal year of operations for 2017 and 2016, the fund balance of the general fund was \$1,888,516 and \$1,117,303, respectively. The general fund is the chief operating fund and only fund of the School.

A summary of the general fund's condensed balance sheets and statements of revenues, expenditures and changes in fund balance is presented in Table B-1 and B-2 as of and for the years ended June 30, 2017 and 2016.

Major Governmental Funds Budgeting and Operating Highlights

An operating budget was adopted and maintained by the governing board for the School pursuant to the requirements of Florida Statutes. The budget is adopted using the same basis of accounting that is used in preparation of the fund financial statements. There were no amendments to the budget during the years ended June 30, 2017 and 2016.

The general fund actual revenues were \$6,738,022 and \$6,349,877 for the years ended June 30, 2017 and 2016, respectively. These amounts are above the budget estimates primarily due to higher than expected local grants and other and contribution for fiscal year 2017 and state FTE and contribution for fiscal year 2016.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Major Governmental Funds Budgeting and Operating Highlights (Continued)

The actual expenditures of the general fund were \$5,966,809 and \$5,948,795 for the years ended June 30, 2017 and 2016, respectively. For the year ended June 30, 2017, this is under the budget estimates primarily due to lower than expected instruction and school administrative salaries. For the year ended June 30, 2016, this is over the budget estimates primarily due to higher than expected instruction, food services and fiscal services expenditures. See pages 24 and 25 for the budgetary comparison schedules.

Capital Assets

At June 30, 2017 and 2016, the School had \$2,678,914 and \$2,403,194 invested in furniture, fixtures, computers, equipment, textbooks and leasehold improvements of which \$1,824,768 and \$1,486,091 has been depreciated, which resulted in a net book value of \$854,146 and \$917,103, respectively. Total additions for the years ended June 30, 2017 and 2016 were \$275,720 and \$289,386, respectively.

Economic Factors and Next Year's Budget

The State of Florida education funding for the Florida Education Finance Program for the fiscal year 2017-2018 minimally increased. These factors were considered in preparing the School's budget for fiscal year 2017-2018.

Requests for Information

This financial report is designed to provide a general overview of the School's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Board of Directors of Lincoln-Marti Charter Schools, Inc., 2700 SW 8th Street, Miami, FL 33135.

JUNE 30, 2017 AND 2016

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-Wide and Fund Financial Statements

The School's government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the School. Governmental activities are supported by Full-Time Equivalent ("FTE") dollars and intergovernmental revenues.

The statements of activities demonstrate the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) Florida Department of Education ("FDOE") funding through the Florida Education Finance Program, 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function and 3) capital grants and contributions that are restricted to meeting the capital requirements of a particular function. FTE dollars and other items not properly included among program revenues are reported instead as general revenues.

The *general fund* is the School's only operating fund and its only governmental fund. It accounts for all financial resources of the School.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The School's government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The School's fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School considers revenues to be available if they are collected within 9 months of the end of the current fiscal period. Expenditures are recorded when a liability is incurred, as under accrual accounting.

FTE dollars, grants and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the School.

The School's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as applicable to state and local governments. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

Assets, Liabilities and Net Position

Cash and Cash Equivalents

The School considers all highly liquid investments with a maturity of three months or less when purchased to be cash and cash equivalents. The School has no cash equivalents at June 30, 2017 and 2016.

Receivables

All intergovernmental receivables are considered to be collectible. No allowance for uncollectible is considered necessary.

Assets, Liabilities and Net Position (Continued)

Due From Other Agencies

The due from other agencies in the accompanying statements of net position and balance sheets—governmental fund represents capital outlay funds receivable from the School Board. These receivables are considered to be fully collectible and as such, no allowance for uncollectable accounts is recorded. For the years ended June 30, 2017 and 2016, the due from other agencies amounts are \$28,968 and \$9,948, respectively.

Prepaid Expenses

Certain prepayments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid expenses in both government-wide and fund financial statements. The cost of prepaid expenses is recorded as expenses when consumed rather than when purchased.

Capital Assets

Capital assets, which include improvements other than buildings and classroom furniture, fixture, textbooks, equipment and others, are reported in the government-wide financial statements. Capital assets are defined by the School as assets with an initial, individual or collective cost of more than \$750 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets of the School are depreciated using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Improvements other than buildings	10
Classroom furniture, fixtures, equipment and others	3 - 7

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net positions that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School does not have any items that qualify for reporting in this category.

In addition to liabilities, the statements of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The School does not have any items that qualify for reporting in this category.

Fund Balance/Net Position

GASB defines fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Balance/Net Position (Continued)

Nonspendable - This classification includes amounts that cannot be spent because they are either (a) not in spendable form (i.e. inventories and prepayments) or (b) are legally or contractually required to be maintained intact.

Restricted - This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Committed - This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the School's Board of Directors. These amounts cannot be used for any other purpose unless the School's Board of Directors removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

Assigned - This classification includes amounts that are constrained by the School's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the School's Board of Directors.

Unassigned - This classification consists of the fund balance for the General Fund. Unassigned amounts are the portion of fund balance which is not obligated or specifically designated and is available for any purpose.

The government-wide financial statements utilize a net position presentation. Net position is categorized as investment in capital assets (net of related debt), restricted and unrestricted.

Investment in Capital Assets (net of related debt) - is intended to reflect the portion of net assets which is associated with non-liquid capital assets less outstanding capital asset related debt. The net related debt is debt less the outstanding liquid assets and any associated unamortized cost.

Restricted Net Position - represent liquid assets (generated from revenues and not bond proceeds) which have third party (statutory, bond covenant or granting agency) limitations on their use. The School would typically use restricted net position first, as appropriate opportunities arise, but reserve the right to selectively defer the use thereof to a future project or for replacement equipment acquisition.

Unrestricted Net Position - represent unrestricted assets.

When both restricted and unrestricted resources are available for use, it is the School's policy to use restricted resources first, then unrestricted resources as they are needed. When an expenditure is incurred for a purpose in which both restricted and unrestricted funds are available, the School considers restricted funds to have been spent first. When expenditures are incurred for which committed, assigned, or unassigned fund balances are available, the School considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the School has provided otherwise in its commitment or assigned actions.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although these estimates are based on management's knowledge of current events and actions it may undertake in the future, they may differ from actual results.

NOTE TO BUDGETARY COMPARISON SCHEDULES
FOR THE YEARS ENDED JUNE 30, 2017 AND 2016

1. BUDGETS AND BUDGETARY ACCOUNTING

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds. All annual appropriations lapse at year-end. The original budget and any subsequent amendments are approved by the Board of Directors. For the years ended June 30, 2017 and 2016, there were no amendments to the original budget.

The general fund actual revenues were \$6,738,022 and \$6,349,877 for the years ended June 30, 2017 and 2016, respectively. These amounts are above the budget estimates primarily due to higher than expected local grants and other contributions for fiscal year 2017 and state FTE revenues and contributions for fiscal year 2016.

The actual expenditures of the general fund were \$5,966,809 and \$5,948,795 for the years ended June 30, 2017 and 2016, respectively. For the year ended June 30, 2017, this is under the budget estimates primarily due to lower than expected instruction and school administration. For the year ended June 30, 2016, this is over the budget estimates primarily due to higher than expected instruction, food services and fiscal services expenditures.

SUPPLEMENTARY AUDITOR'S REPORTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors and Officers of
Lincoln-Marti Charter Schools, Inc.
Little Havana Campus Charter School
(A Component Unit of the School Board of Miami-Dade County)

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and major fund, of Lincoln-Marti Charter Schools, Inc. (Little Havana Campus Charter School) (the "School") (a Component unit of the School Board of Miami-Dade County), as of and for the years ended June 30, 2017 and 2016, and the related notes to the financial statements, which collectively comprise the School's basic financial statements, and have issued our report thereon dated August 30, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of the School's internal control.

A *deficiency* in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
