INDEPENDENT AUDITORS' REPORT

Board of Directors
Doral Academy High School
Doral, Florida

We have audited the accompanying basic financial statements of the governmental activities and each major fund of Doral Academy High School (the "School"), a charter school under Doral Academy High School, Inc., a component unit of the District School Board of Miami-Dade County, as of, and for the year ended June 30, 2009, which collectively comprises the School's basic financial statements as listed in the table of contents. These basic financial statements are the responsibility of the School's management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1, the accompanying financial statements referred to above present only the financial position of Doral Academy High School at June 30, 2009, and the respective changes in financial position for the year then ended, and is not intended to be a complete presentation of Doral Academy High School, Inc.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and each major fund of Doral Academy High School, as of June 30, 2009, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 28, 2009, on our consideration of the School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and the budgetary comparison information on pages 4 through 8 and 23 through 24, respectively, are not a required part of the basic financial statements but are supplemental information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Management's Discussion and Analysis
Doral Academy High School
(A Charter School Under Doral Academy High School, Inc.)
June 30, 2009

The corporate officers of Doral Academy High School (the "School") have prepared this narrative overview and analysis of the School's financial activities for the fiscal year ended June 30, 2009.

Financial Highlights

1. The assets of the School exceeded its liabilities at June 30, 2009 by \$ 3,896,253 (net assets).
2. At year-end, the School had current assets on hand of \$ 2,702,491.
3. At the end of the school year, the school had accumulated a net increase of \$ 35,624 in net assets for the year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the School's basic financial statements. The School's financial statements for the year ended June 30, 2009 are presented under GASB 34. The financial statements have three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other required supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the School's finances, in a manner similar to a private-sector business.

The *Statement of Net Assets* presents information on all of the School's assets and liabilities. The difference between the two is reported as *net assets*. Over time increases or decreases in net assets may serve as an indicator of whether the financial position of the School is improving or deteriorating.

The *Statement of Activities* presents information on how the School's net assets changed during the fiscal year. All changes in net assets are reported when the underlying event occurs without regard to the timing of related cash flows. Accordingly, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements can be found on pages 9 - 10 of this report.

Fund Financial Statements

A "fund" is a collection of related accounts grouped to maintain control over resources that have been segregated for specific activities, projects, or objectives. The School like other state and local governments uses fund accounting to ensure and report compliance with finance-related legal requirements.

All of the funds of the School are governmental funds. *Governmental Funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Government Fund financial statements, however, focus on *near-term* inflows and outflows of spendable resources, as well as on the balances of spendable resources which are available at the end of the fiscal year. Such information may be used to evaluate a government's requirements for near-term financing.

The Board of the School adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with the School's budget.

The basic governmental fund financial statements can be found on pages 11 - 15 of this report.

Notes to Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 16 - 22 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a charter school's financial position. In the case of the School, assets exceeded liabilities by \$ 3,896,253 at the close of the fiscal year. A summary of the School's net assets as of June 30, 2009 and 2008 follows:

	2009	2008
Cash	\$ 2,361,970	\$ 2,168,078

Net Assets at End of Year	<u>\$ 3,896,253</u>	<u>\$ 3,860,629</u>

Due to the adverse economic climate nationwide, the State of Florida initiated several hold backs in FTE funding as driven by their budgeting process. In addition, there was a significant decrease in student enrollment. As a result, Doral Academy High School's revenue decreased by \$1,309,915 in the current year and expenses decreased by \$483,057. The School had an increase in its net assets of \$35,624 for the year. Please note that student enrollment increased for 2010 by approximately 100 students.

School Location and Lease of Facility

The School leases a facility located at 11100 NW 27th Street.

Accomplishments

In 2009, Doral Academy High School was listed for the 2nd consecutive year as one of the “Best High Schools in America” by U.S. News & World Report magazine, as well as one of the “Top Public High Schools in America” by Newsweek magazine. The School earned a letter grade of “A,” and ranked among the top highest-performing public high schools in Miami-Dade County. It also received a “School Recognition Award” from the State of Florida and the Superintendent’s Platinum Award for its achievement. Furthermore, Doral Academy High School’s Hispanic graduation rate of over 97% in 2009 far exceeded the state and national average rates. The graduating class of 2009 combined received over \$2.3 million in financial aid and scholarships to universities (in and out-of-state).

Doral Academy High School provides its students with a rigorous college preparatory curriculum, as well as a rich extra-curricular program of activities, including team sports and clubs. In 2009, several teams made it to Regional and State Finals, including the Girls Swimming team, the Wrestling team, and the Track and Field team. In addition, a Doral Academy High School graduate was prominently featured at an art gallery in Miami’s Design District.

Capital Improvement Requirements

The School maintains a continuous capital improvements program to enhance facilities and update fixtures and equipment as required.

This past year, the school’s facilities underwent further renovations. In addition to the completion of state-of-the-art ball fields and courts, the cafeteria and lunch pavilion were also substantially expanded to accommodate the growing student population.

FINANCIAL ANALYSIS OF THE GOVERNMENT’S FUND

As noted earlier, the School uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the School’s *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the School’s financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government’s net resources available for spending at the end of the fiscal year.

At the end of the fiscal year, the School’s governmental fund reported a fund balance of \$ 2,346,642.

Capital Assets

The School's investment in capital assets as of June 30, 2009 amounts to \$ 1,549,611 (net of accumulated depreciation). This investment in capital assets includes furniture, fixtures and computer equipment.

School Enrollment

This past year, the School had approximately 860 students enrolled in grades nine through twelve.

Governmental Fund Budget Analysis and Highlights

Prior to the start of the School's fiscal year, the Board of the Charter School adopted an annual budget. A budgetary comparison statement has been provided for the governmental fund to demonstrate compliance with the School's budget.

Note 1 – Organization and Operations

Doral Academy High School (the "School"), is a charter school under Doral Academy High School, Inc., a not-for-profit corporation organized in the State of Florida. The governing body of the School is the board of directors of Doral Academy High School, Inc., which also governs other various charter schools. The School operates under a charter granted by the sponsoring district, the District School Board of Miami-Dade County (the "District"). The current charter expires on June 30, 2011 and is renewable for an additional 15 years by a mutual written agreement between the School and the District. During the term of the charter, the District may terminate the charter if good cause is shown. The School is considered a component unit of such District. The School is located in Doral, Florida for students from ninth through twelfth grades and is funded by the District.

These financial statements are for the year ended June 30, 2009, when approximately 860 students were enrolled for the school year.

Note 2 – Summary of Significant Accounting Policies

Basis of presentation

Based on the guidance provided in the American Institute of Certified Public Accountants Audit and Accounting Guide – Audits for States and Local Governments and provisions of Florida Statutes, the School is presented as a governmental organization for financial statement reporting purposes.

Government-wide and Fund Financial Statements

Government-wide Financial Statements

The government-wide financial statements include the statement of net assets and the statement of activities. These statements report information for the School as a whole. Both statements report only governmental activities as the School does not engage in any business type activities. These statements also do not include fiduciary funds.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees; (2) operating grants and contributions which finance annual operating activities; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. Other revenue sources not properly included with program revenues are reported as general revenues.

Note 2 – Summary of Significant Accounting Policies (continued)

Fund Financial Statements

Fund financial statements are provided for governmental funds. The operations of the funds are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, equity, revenues and expenditures. Major individual governmental funds are reported as separate columns in the fund financial statements:

General Fund - is the School's primary operating fund. It accounts for all financial resources of the school, except those required to be accounted for in another fund.

Special Revenue Fund - accounts for specific revenue, such as capital outlay funding and federal lunch program that are legally restricted to expenditures for particular purposes.

Agency Fund – accounts for resources of the School's Internal Fund, which is used to administer monies collected at the schools in connection with school, student athletics, class, and club activities.

Measurement Focus and Basis of Accounting

The financial statements of the School are prepared in accordance with generally accepted accounting principles (GAAP). The School's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements. The government-wide financial statements apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails.

The government-wide statements report using the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Revenues from non-exchange transactions are reported according to Governmental Accounting Standards Board (GASB) Statement No. 33 Accounting and Financial Reporting for Non-Exchange Transactions, as amended by GASB Statement No. 36 Recipient Reporting for Certain Shared Non-Exchange Revenues, they include grants and donations. On the accrual basis, revenues from grants and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. "Measurable" means the amount of the transaction can be determined. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The School considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for long-term debt principal and interest which are reported as expenditures in the year due.

Note 2 – Summary of Significant Accounting Policies (continued)

Cash

Cash and cash equivalents include all highly liquid investments with a maturity of three months or less.

Due from Other Governments or Agencies

Amounts due to the School by other governments or agencies are for grants or programs under which the services have been provided by the School.

Capital Assets

The School's property, plant and equipment with useful lives of more than one year are stated at historical cost and comprehensively reported in the statement of net assets in the government-wide financial statements. Donated capital assets are recorded at their estimated fair market value on the date donated. The School generally capitalizes assets with cost of \$500 or more. Building improvements, additions and other capital outlays that significantly extend the useful life of an asset are capitalized. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations. Estimated useful lives, in years, for depreciable assets are as follows:

Improvements	10-15 Years
Textbooks	3 Years
Furniture, Equipment and Software	5 Years

Revenue Sources

Revenues for operations will be received primarily from the District pursuant to the funding provisions included in the School's charter. In accordance with the funding provisions of the charter and Section 1002.33, Florida Statutes, the School will report the number of full-time equivalent (FTE) students and related data to the District. Under the provisions of Section 1011.62, Florida Statutes, the District reports the number of the full-time equivalent (FTE) students and related data to the Florida Department of Education (FDOE) for funding through the Florida Education Finance Program. Funding for the School is adjusted during the year to reflect the revised calculations by the FDOE under the Florida Education Finance Program and the actual weighted full-time equivalent students reported by the School during the designated full-time equivalent student survey periods. In addition, the school receives an annual allocation of charter school capital outlay funds for leasing of school facilities.

Finally, the School may receive Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to and approved by various granting agencies.

Note 2 – Summary of Significant Accounting Policies (continued)

For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred. Any excess amounts are recorded as deferred revenues until expended. Additionally, other revenues may be derived from various fundraising activities and certain other programs.

Compensated Absences

The School grants a specific number of days of sick. Full time instructional employees are eligible to one day per month to up to ten days of active work during the ten-month period (a “benefit year”). In the event that available time is not used by the end of the benefit year, employees may “rollover” all unused days for use in future benefit years. There is an opportunity to “cash out” unused sick days; however, the employees may only cash out if they have used three days or less of their sick leave in that benefit year. Employees may not cash out more than ten days per school year and are required to always maintain a minimum of twenty-one unused days. The cash out value is eighty percent of their current daily rate. There is no termination payment for accumulated unused sick days.

Government Accounting Standards Board (GASB) Statement 16, Accounting for Compensated Absences, provides that compensated absences that are contingent on a specific event that is outside the control of the employer and employee should be accounted for in the period those events take place. Accordingly, these financial statements do not include an accrual for sick days available to be used in future benefits years.

The School also provides certain days to be used for specific personal matters such as family death and jury duty. Because the use of such days is contingent upon those events taking place and such events are out of the control of both the employer and the employee, there is no accrual for such days.

Income Taxes

Doral Academy High School, Inc. qualifies as a tax-exempt organization under Internal Revenue Code Section 501(c)(3), and is, therefore, exempt from income tax. Accordingly, no tax provision has been made in the accompanying financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Depreciation expense for the period ended June 30, 2009 was \$404,834 and is allocated in the Statement of Activities to instruction, facilities acquisition, plant maintenance and operation of plant.

Note 4 –Management Agreement

Academica Dade, LLC, a professional charter school management company, provides management and administrative services to the School including, but not limited to, facility design, staffing recommendations, human resource coordination, regulatory compliance, legal and corporate upkeep, maintenance of the books and records, bookkeeping, budgeting and financial reporting. The agreement between the School and the management company calls for a fee of \$450 per full time equivalent (FTE) student per year. The agreement is for a period of five years, through July 2009, and unless terminated by the board shall be renewed along with any renewals to the charter agreement. During the year ended June 30, 2009, the School incurred approximately \$387,000 in management fees. As of June 30, 2009, the School had prepaid approximately \$11,000 in management fees. Academica Dade, LLC is located at 6361 Sunset Drive, Miami, Florida 33143 and its officers are:

Fernando Zulueta, President
Ignacio Zulueta, Vice President
Magdalena Fresen, Vice President
Collette Papa, Secretary

Note 5 – Transactions with Other Charter Schools and Other Revenues

The School charged Doral Performing Arts and Entertainment Academy and Pinecrest Preparatory Academy High school (charter schools operated by the same management company) for the use of shared facilities, staff and other operating costs under a usage fee agreement. Total usage fees charged under the agreement totaled \$318,416 for the year of which approximately \$7,200 was due from Pinecrest Preparatory Academy High school at year end.

Note 6 – Deposits Policy and Credit Risk

It is the School's policy to maintain its cash and cash equivalents in major banks and in high grade investments. As of June 30, 2009, the carrying amount of the School's deposits was \$2,361,970 and the respective bank balances totaled \$2,645,082. Out of the total bank balances, \$2,180,000 was fully collateralized by U.S. Government obligations under a repurchase agreement with Regions Bank and the remainder was subject to coverage under the Federal Depository Insurance Corporation (FDIC).

Note 7 – Commitments and Contingencies

The School entered into a lease and security agreement with School Development, LLC (the "Landlord") for its 57,000 square feet building including all ancillary facilities, outdoor areas and other improvements. Presently, members of the Landlord are also stockholders of the company which is the sole owner of Academica Dade, LLC (See Note 4). Fixed initial annual payments under this agreement are based on a rate of \$23.15 per square footage of the building, which amounts to approximately \$1,319,550 adjusted annually based on the Consumer Price Index (CPI) plus additional property costs including repairs, maintenance and insurance. The agreement continues through August 2024 with an option to renew for an additional five-year term. Under the agreement, the School must meet certain covenants and requirements, including a "Lease Payment Coverage Ratio" of not less than 1.10 to 1.00 and maintain a reserve for property expenses such as repairs, maintenance, taxes or insurance. The balance on the insurance reserve account, which is included in prepaid expenses, was \$157,511 at June 30, 2009. Finally, under this agreement the School has granted a first lien on its pledged revenues, which includes all revenues collected by the school from the Florida Department of Education, the District, and all other sources. For 2009, rent expense totaled \$1,571,481, out which approximately \$1,543,000 related to the facility lease. As of June 30, 2009, the School had prepaid approximately \$129,637 of rent expense.

Note 7 – Commitments and Contingencies (continued)

Future minimum payments under these leases are as follows:

<u>Year</u>	
2010	\$1,548,768
2011	\$1,548,768
2012	\$1,548,768
2013	\$1,548,768
2014	\$1,548,768
2015-2019	\$7,743,840 (Total for five-year period)
2020-2023	\$6,195,192 (Total for four-year period)

The School received substantially all of its revenues from Federal and local governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and may be subject to audit by the grantor agencies.

Note 8 – Risk Management

The School is exposed to various risks of loss related to torts, thefts of, damage to and destruction of assets, errors and omissions and natural disasters for which the School carries commercial insurance. Settlement amounts have not exceeded insurance coverage in the past. In addition, there were no reductions in insurance coverage from those in the prior year.

Note 9 – Defined Contribution Retirement Plan

The School's personnel, which are leased through ADP TotalSource Group, Inc., are eligible to participate in a defined contribution 401(k) plan sponsored by the leasing company, covering employees who meet certain age and tenure requirements. Under the ADP TotalSource Retirement Savings Plan (the "Plan"), the School provides a match of 50% of the employee's contribution up to 4% of the employee's compensation. The School contributed to the Plan \$21,703 for the year ended June 30, 2009. The School does not exercise any control or fiduciary responsibility over the Plans' assets, which are administered by MassMutual Financial Group.

REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Board of Directors of
Doral Academy High School
Doral, Florida

We have audited the financial statements of the governmental activities and each major fund of Doral Academy High School (the "School") as of, and for the year ended June 30, 2009, which collectively comprise the School's basic financial statements and have issued our report thereon dated August 28, 2009. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audits, we considered the School's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the School's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the School's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the School's financial statements that is more than inconsequential will not be prevented or detected by the School's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the School's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the audit committee, the Auditor General of the State of Florida and the School Board of Miami-Dade County and is not intended to be and should not be used by anyone other than these specified parties.

MANAGEMENT LETTER

Board of Directors of
Doral Academy High School
Doral, Florida

We have audited the accompanying basic financial statements of Doral Academy High School as of and for the year ended June 30, 2009 and have issued our report thereon dated August 28, 2009.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and Compliance and Other Matters. Disclosure in those reports, which are dated August 28, 2009, should be considered in conjunction with this management letter.

Additionally, our audit was conducted in accordance with Chapter 10.850, Rules of the Auditor General, which govern the conduct of charter school audits performed in the State of Florida. This letter includes the following information, which is not included in the aforementioned auditor's report or schedule:

1. Section 10.854(1)(e)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report.

Corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report.

2. Section 10.854(1)(e)3., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management.

In connection with our audit, we did not have any such recommendations.

3. Section 10.854(1)(e)4., Rules of the Auditor General, requires that we address violations of laws, regulations, contracts or grant agreements, or abuse that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but more than inconsequential.

In connection with our audit, we did not have any such violations.

4. Section 10.854(1)(e)5., Rules of the Auditor General, provides that the auditor may, based on professional judgment, report the following matters that are inconsequential to the determination of financial statement accounts, considering both quantitative and qualitative factors: (1) violations of laws, regulations, contracts or grant agreements, or abuse that have occurred, or are likely to have occurred, and (2) control deficiencies that are not significant deficiencies, including, but not limited to; (a) improper or inadequate accounting procedures (e.g., the omission of required disclosures from the annual financial statements); (b) failures to properly record financial transactions; and (c) inaccuracies, shortages, defalcations, and instances of fraud discovered by, or that come to the attention of, the auditor.

In connection with our audit, we did not have any such findings.

5. Section 10854.(1)(e)6., Rules of the Auditor General, requires the name or official title of the school.

The official title of the school is disclosed in the accompanying financial statements.

6. Section 10.854(1)(e)2., Rules of the Auditor General, requires a statement be included as to whether or not the school has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met.

In connection with our audit, no such conditions were noted.

7. Pursuant to Sections 10.854(1)(3)7.a. and 10.855(10)., Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

We have applied such procedures and no deteriorating financial condition has been noted.

Pursuant to Chapter 119, Florida Statutes, this management letter is a public record and its distribution is not limited. Auditing standards generally accepted in the United States of America require us to indicate that this letter is intended solely for the information and use of management, the audit committee, the Auditor General of the State of Florida and the School Board of Miami-Dade County, and is not intended to be and should not be used by anyone other than these specified parties.
